

**Underwater  
ROV operated  
switch**

**1000 msw depth**

Magnet coupled

90° Rotating switch

Large paddle for ROV  
manipulator interface

For underwater vehicles,  
subsea canisters, subsea  
equipment and instrument...

**Specifications**

**Mechanical**

Max. diameter : 110 mm

Paddle 110 mm large ; height 50mm

Materials : body + handle Titanium TA6V ; external ring POM-C

Maximum allowable torque : 40 N.m,

**Electrical**

Contact rating : Switching current 5A, Max. Power 250VA

Life expectancy 10<sup>6</sup> cycles

Contact resistance 100 mΩ

Normal open contact

Internal Pigtail 30cm (2 wires)

**Operating temperatur : -40 / +125 C°**

**Head Office**

901 Avenue Alphonse Lavallée  
83210 La Farlède – France
